

Instruction and installation manual of
LED
WoodenFrame

Thank you that you decided to buy our product. We made all our products taking care of each detail and we subject them to multiple tests. We are convinced that you made a purchase that will serve you for a long time.

NECESSARY TOOLS

- A pencil
- A measuring tape or a ruler
- A level
- A wall plug (included)
- Montage hooks included
- You will also need person for help
- A drill bit
- A drill and a screwdriver

Read the instructions carefully before proceeding with the installation. Failure to follow the instructions may result in the refusal to accept the complaint.

SECURITY

Warning glass!

Place the mirror only on a soft surface. Frame corners are particularly susceptible to mechanical damage.

Good

Wrong

Attention!

- Do not hang the frame on movable elements of the interior equipment.
- Do not glue the frame to the wall using an adhesive tape.
- The wall on which you hang the mirror should be made of a durable material (e.g. concrete, brick, reinforced concrete, etc.). If you want to hang the product on a plasterboard wall, use wall plugs designed for this type of wall (Molly plugs, worm plugs), they are not included in the assembly kit.
- Make sure that the surface on which you want to hang the product on can support the weight of the cabinet and its contents (10 - 20 kg).

PREPARATION FOR MONTAGE

Do not place the frame on a hard surface as this may damage the product.

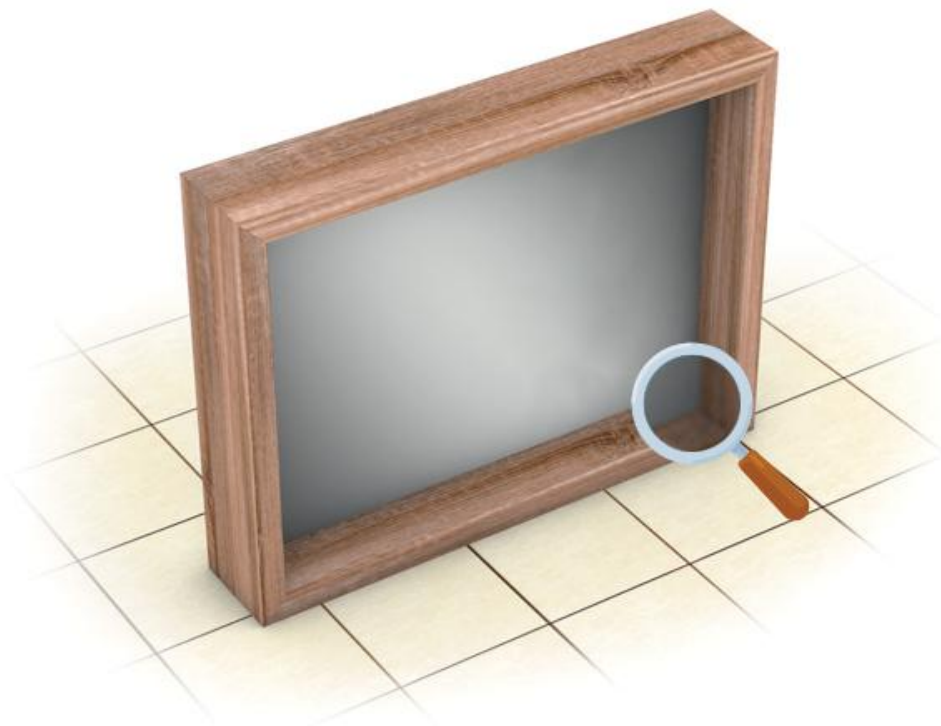

- 1.** First, open the package. Remember not to place the mirror on a hard surface as this may damage the product.
- 2.** Check if the package contains all the elements (product received according to the order, assembly elements).
- 3.** Then take the mirror out of the packaging and place it on a soft surface (you can use a folded towel for this).
- 4.** Make sure the product does not have any scratches or damage. Pay particular attention to the corners, check them first by removing the protections. If necessary, contact us, do not install the item with possible damage.

Content:

1. LED WoodenFrame

2. A wall plugs (2 pcs)

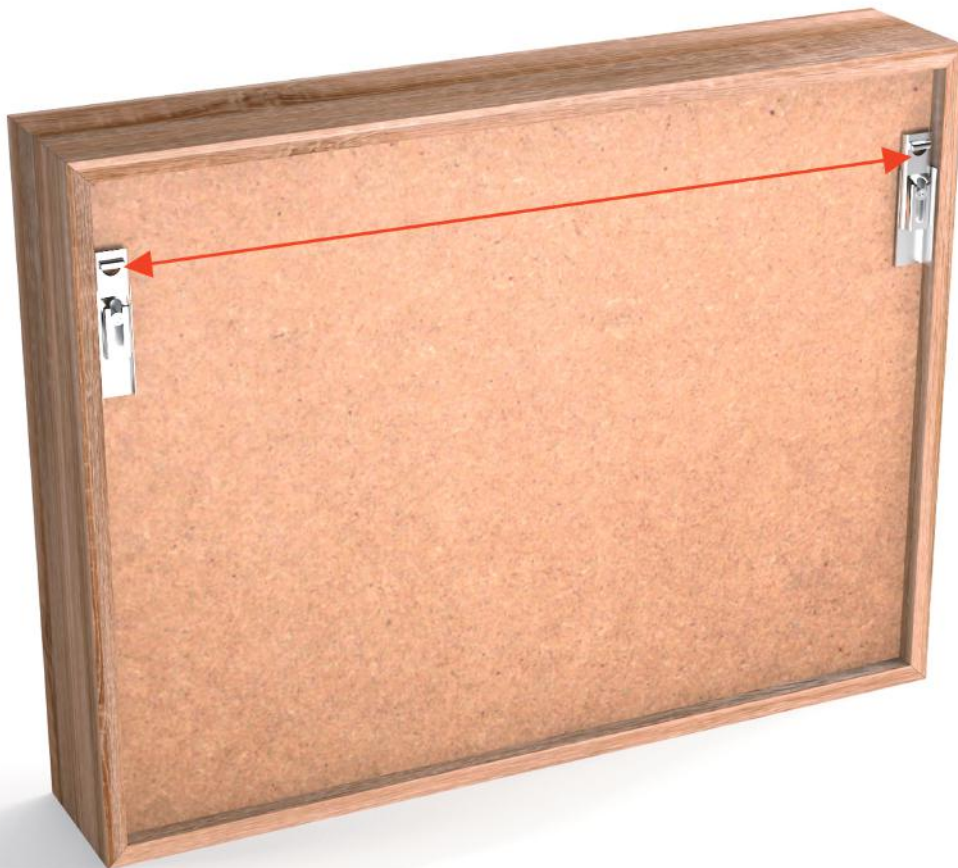

3. Montage hooks (2 pcs)

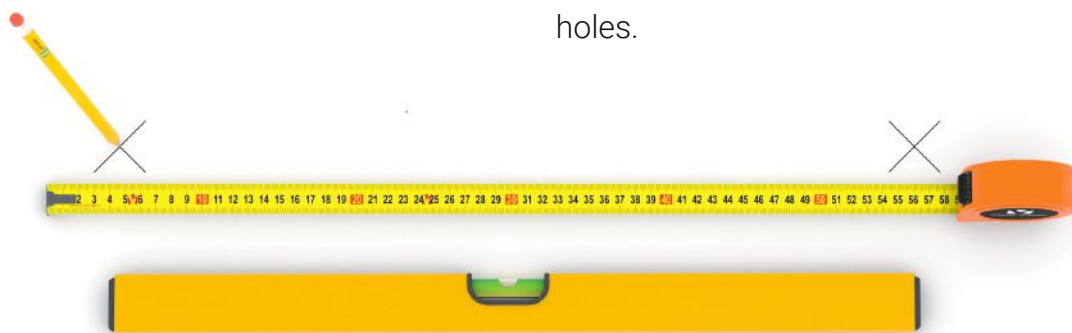

INSTRUCTION FOR MOUNTING ON THE WALL

1. In order to determine the place for mounting on the wall, measure the distance between two hangers stuck to the frame.

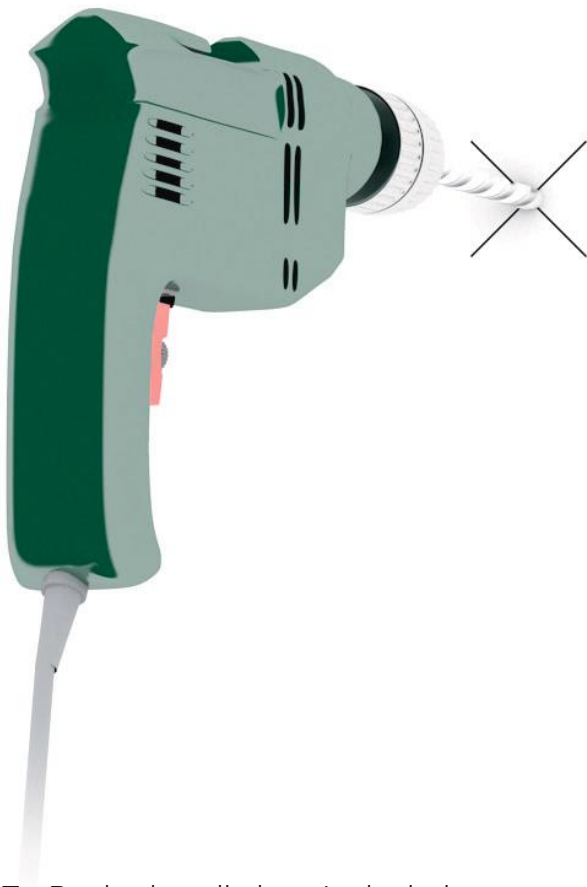

2. Use these measurements to mark two points on the wall that will serve you to drill holes.

INSTRUCTION FOR MOUNTING ON THE WALL

3. Make sure that the distances between the holders on frame and between the points marked on the wall are the same.

4. Check whether there is no installation in places that were determined to make holes there.
5. If there is any installation in the wall, choose another place for the mount.
6. Once you determine mounting places on the wall, drill holes there.

7. Put both wall plugs in the holes
8. Then screw the "L" hook into the expansion bolts up to a distance of 3 cm from the wall.

9. Make sure the hooks are screwed in properly to ensure that the frame is securely fastened.

INSTRUCTION FOR MOUNTING ON THE WALL

10. Hang the frame on the "L" mounting hooks.

 Use the element marked in red to adjust the distance between the shelf and the wall.

 The element marked in yellow is used to adjust the height of the pendant (up / down).

GUIDELINES RELATING TO CLEANING AND MAINTENANCE

- If blurs remain on the glass after removing the protective film, use the included glue remover. You can eliminate any streaks with a glass cleaner.
- Use only agents intended for cleaning of glass surfaces and a dry microfibre cloth for everyday maintenance of the mirror.
- Avoid cleaning glass with silicone or acidic agents. Cleaning agents of such kind may damage surface of the glass and induce its corrosion in the future.
